BATTERY PACKS

We produce customized battery packs using the latest technologies like Li-ion, Li pol, NiMH, NiCD etc. We can provide the below,

- All Li-ion / Li pol batteries have built-in protection module which protects the battery from normal abuse like, Over charge, Over Discharge, Short Circuit etc.
- Plastic enclosure to suit to your equipment.
- Additional features like Thermistor for temperature sensing, Fuse, etc.
- Digital data from our battery like, "Energy Remaining", "Temperature", No of charge / discharge cycles, online voltage, current, etc.
